SUMMARY

Growth mindset, challenge driven, passionate for developing and integrating new solutions with 1+ years of experience in software development, and customer service environment.

EXPERIENCES

FULL STACK ENGINEER - SMART4

Jun. 2021 – Sep. 2022

- Developed and maintained systems in Java for public agencies: Using Java to develop the back-end, and ZK framework to develop the front-end in HTML. I used to have daily tasks to implement new features or to fix bugs in those systems.
- Managed Database through SQL queries: I used to manage the database of the systems that I was responsible using SQLyog. Creating new tables or updating data, when we had the introduction of a new window in the system.
- The use of Git to do the version update and keep the branch updated whenever a new modification was completed.
- Maintained, troubleshoot, and managed the use of local area networks (LANs), computer workstations, connections to the Internet and peripheral equipment.
